SUMMARY

Computer Science student at BINUS University targeting entry-level Data Analyst or Business Analyst roles, combining SQL, Python, BI dashboards, and requirements analysis to turn business questions into actionable insights. Experienced in Python and SQL ETL, dimensional data modeling, Power BI/Tableau dashboards, requirements documentation, prototype development and UAT. Combines technical analysis with business-oriented problem solving across analytics, data engineering, and system analysis projects.

EDUCATION

BINUS University, Semarang, Computer Science, Bachelor's Degree | GPA 3.91 / 4.00

2024 – 2028

SKILLS

Data Analytics: SQL (PostgreSQL, MySQL), exploratory data analysis, hypothesis testing, cohort analysis

BI and Reporting: Power BI (DAX, live SQL connection), Tableau

Data Engineering: ETL, data warehouse, star schema and dimensional modeling, Pentaho Data Integration, Apache Spark (PySpark), Hadoop HDFS, Python (Pandas, NumPy), batch scripting

Business and Systems Analysis: Requirements analysis, BRD, SRS, BPMN, ERD, UML, RTM, UAT, Agile

Machine Learning: Scikit-learn, XGBoost, CatBoost, Random Forest, SMOTE, ADASYN, cross-validation

Interpersonal & Professional: Leadership, team coordination, stakeholder communication, time management, problem-solving, adaptability, attention to detail

Tools: Figma, Visual Paradigm, Mermaid.js, Git/GitHub, Docker, Laravel

PROJECTS

Customer Support Ticket Analytics | Business Analyst, BI Analyst, Data Engineering

- Wrote the BRD and BPMN process models; designed the ERD and PostgreSQL star schema (fact_tickets, 4 dimensions)
- Built a Python (Pandas) ETL pipeline for 4,000 tickets; answered 18 business questions in SQL; built a Power BI dashboard; ran UAT
- Found the Technical queue holds 32% of volume and 46.2% of 225 open tickets; recommended staffing review

Automated Data Pipeline for Online Retail Analytics | Data Engineer, Data Analyst, BI Developer

- Designed the ERD and MySQL star schema; built Pentaho ETL (deduplication, validation) for ~400,000 transactions
- Automated daily runs with Windows Task Scheduler; built a Power BI dashboard with sales KPIs and cohort retention matrices
- Analyzed \$8.75M revenue; found retention falls to 11% to 36% after month one; recommended a 30-day loyalty program

Big Data Architecture and Satisfaction Prediction, Brazilian Olist E-Commerce | Team Leader, Data Analyst, ML Engineer

- Led a team building a batch ETL pipeline using PySpark and Hadoop HDFS across 9 interconnected datasets.
- Trained a CatBoost model with ADASYN to predict satisfaction scores: 81.98% accuracy (10-fold stratified CV)
- Found satisfaction drops from 82.85% (on-time) to 34.68% (late); built a multi-page Power BI dashboard

Customer Shopping Behavior Analysis | Data Analyst, ML Modeling

- Analyzed 3,900 transactions in Python (Kruskal-Wallis, Mann-Whitney U, Chi-Square); modeled with SMOTE and XGBoost
- Found discounts gave 0% lift in average ticket (\$59.76); built a 4-page Tableau dashboard

Servin, F&B Point of Sale System (ongoing) | Business Analyst, System Analyst

- Wrote the SRS; produced user flow, use case, class, and ERD diagrams (Mermaid.js) for a web POS: ordering, cashier, kitchen, inventory
- Built a requirements traceability matrix and UAT checklists; oversee PHP, MySQL, Bootstrap development

VolunteerHub, Volunteer and Event Management Platform | Business Analyst, System Analyst, UI/UX Designer

- Wrote the SRS; produced user flow, use case, class, and sequence diagrams (Visual Paradigm) for event registration, payment, and refund flows
- Designed Tailwind CSS interfaces for the Laravel app; coordinated usability testing with non-profit stakeholders

ORGANIZATIONAL EXPERIENCE

Manager, Human Resource Department (Regional Semarang), HIMTI BINUS University

Mar 2026 – Present

- Manage member administration, performance evaluations, and talent development for the Semarang branch, supporting structured people development and organizational operations.

Registration and Fundraising Committee, HIMTI BINUS University

Sep 2025 – Dec 2025

- Ran registration, data validation, and check-in for HIMTI Leadership Training 2026 and Sesvent 2025; led fundraising

Marketing Promotion Staff, IMCB, BINUS University

Apr 2025 – Jul 2025

- Designed and launched the "Review-for-Reward" promotion for MSMEs, increasing Google Business Profile ratings and search visibility through a structured customer review campaign.

Sponsorship Committee, BINUS Festival 2025

Oct 2025 – Dec 2025

- Scouted, negotiated with, and onboarded tenants for BINUS Festival 2025, contributing to sponsorship target achievement through partnership outreach and vendor coordination.

AWARDS AND CERTIFICATIONS

Awards

- 3rd Place, INBIZ 2025 National Business Competition: Reeflection (68% survey interest, 5-year financial model, Figma)
- Top 10 Finalist, INNOBIZ 2025 Business Plan Competition — Little Thinkers (market analysis, 5-year financial model, Figma prototype)

Certifications

- Coursera Business Analyst Professional Credential;
- IBM Agile Explorer;
- IBM Data Classification and Governance;
- Samsung Innovation Campus Python;
- Beelingua English Proficiency;
- ICPC Competitive Programming Achievement
