SUMMARY

Aspiring Data Analyst / Business Intelligence Analyst and Computer Science student at BINUS University with hands-on project experience in end-to-end data analytics, dimensional modeling, and business reporting. Proficient in designing SQL-backed star schemas, building Python and Pentaho ETL pipelines, and delivering interactive Power BI and Tableau dashboards that drive data-informed business decisions. Proven track record in translating complex requirements into actionable business insights, sales KPI tracking, and retention analysis. Eager to leverage technical expertise, analytical thinking, and adaptability in data-driven technology and consulting roles.

EDUCATION

BINUS University, Semarang, Bachelor of Computer Science | GPA 3.92 / 4.00 2024 – 2028

SKILLS

Data Analytics: SQL (PostgreSQL, MySQL), exploratory data analysis, hypothesis testing, cohort analysis
BI and Reporting: Power BI (DAX, live SQL connection), Tableau
Data Engineering: ETL, data warehouse, star schema and dimensional modeling, Pentaho Data Integration, Python (Pandas, NumPy)
Business and Systems Analysis: Requirements analysis, BRD, SRS, BPMN, ERD, UML, RTM, UAT
Interpersonal & Professional: Leadership, team coordination, stakeholder communication, time management, problem-solving, adaptability, attention to detail
Tools: Figma, Visual Paradigm, Mermaid.js, Git/GitHub

PROJECTS

Customer Support Ticket Analytics | Business Analyst, BI Analyst, Data Engineering
- Wrote the BRD and BPMN process models; designed the ERD and PostgreSQL star schema (fact_tickets, 4 dimensions)
- Built a Python (Pandas) ETL pipeline for 4,000 tickets; answered 18 business questions in SQL; built a Power BI dashboard; ran UAT
- Found the Technical queue holds 32% of volume and 46.2% of 225 open tickets; recommended staffing review

Automated Data Pipeline for Online Retail Analytics | Data Engineer, Data Analyst, BI Developer
- Designed the ERD and MySQL star schema; built Pentaho ETL (deduplication, validation) for ~400,000 transactions
- Built a Power BI dashboard with sales KPIs and cohort retention matrices
- Analyzed $8.75M revenue; found retention falls to 11% to 36% after month one; recommended a 30-day loyalty program

Big Data Architecture and Satisfaction Prediction, Brazilian Olist E-Commerce | Team Leader, Data Analyst, ML Engineer
- Led a team building a batch ETL pipeline across 9 interconnected datasets
- Trained a CatBoost model with ADASYN to predict satisfaction scores: 81.98% accuracy (10-fold stratified CV)
- Found satisfaction drops from 82.85% (on-time) to 34.68% (late); built a multi-page Power BI dashboard

Customer Shopping Behavior Analysis | Data Analyst, ML Modeling
- Analyzed 3,900 transactions in Python (Kruskal-Wallis, Mann-Whitney U, Chi-Square); modeled with SMOTE and XGBoost
- Found discounts gave 0% lift in average ticket ($59.76); built a 4-page Tableau dashboard

Servin, F&B Point of Sale System (ongoing) | Business Analyst
- Wrote the SRS; produced user flow, use case, class, and ERD diagrams (Mermaid.js) for a web POS: ordering, cashier, kitchen, inventory
- Built a requirements traceability matrix and UAT checklists

ORGANIZATIONAL EXPERIENCE

Manager, Human Resource Department (Regional Semarang), HIMTI BINUS University Mar 2026 – Present
- Manage member administration, performance evaluations, and talent development for the Semarang branch, supporting structured people development and organizational operations.

Registration and Fundraising Committee, HIMTI BINUS University Sep 2025 – Dec 2025
- Ran registration, data validation, and check-in for HIMTI Leadership Training 2026 and Sesvent 2025; led fundraising

Marketing Promotion Staff, IMCB, BINUS University Apr 2025 – Jul 2025
- Designed and launched the "Review-for-Reward" promotion for MSMEs, increasing Google Business Profile ratings and search visibility through a structured customer review campaign.

Sponsorship Committee, BINUS Festival 2025 Oct 2025 – Dec 2025
- Scouted, negotiated with, and onboarded tenants for BINUS Festival 2025, contributing to sponsorship target achievement through partnership outreach and vendor coordination.

AWARDS AND CERTIFICATIONS

Awards
- 2nd Place, AIESEC National Business Plan Competition 2026 — Little Thinkers (market analysis, 5-year financial model, Figma prototype)
- 3rd Place, INBIZ 2025 National Business Competition: Reeflection (68% survey interest, 5-year financial model, Figma)

- Top 10 Finalist, INNOBIZ 2025 Business Plan Competition

Certifications

- Coursera Business Analysis & Process Management Credential;
- IBM Agile Explorer;
- IBM Data Classification;
- Samsung Innovation Campus Python Programming Completion;
- Beelingua English Proficiency;
- ICPC Competitive Programming Achievement
